Sony's MOBILAB™
the first mobile language lab.

With Sony's MOBILAB, languages can be taught in any room, under
a tree, even *sur la plage*. And MOBILAB can go from school to school
for maximum utilization with minimum equipment cost.

It's about the same reasonable price as a wireless installation,
but without that poor wireless sound that has teachers everywhere
crying "'oncle!"

On the other hand, fixed labs do have good sound, true. But the
cost? *Gott im himmel!*

MOBILAB gives you the quality sound of a fixed lab but at a
much lower cost.

But no other system, fixed or wireless, offers as much operat-
ing ease and teaching flexibility: all three teaching levels plus inde-
pendent study (the students can take the player/recorders with
them).

Each of the compact MOBILAB cabinets includes console,
teacher player/recorder, 10 student player/recorders, and headsets
for all. Two or more MOBILAB units can be quickly, easily coupled to
instruct any number of students.

"*Un sistema maravilloso de lengua!*" can now be very clearly
enunciated, anywhere, with the portable MOBILAB.
