Learn foreign languages as they are spoken TODAY by natives broadcasting on shortwave radio—news—entertainment—sports—etc. Drake SPR-4 Receivers are in use at the University of Louisville’s Arts and Science Learning Lab. Dale V. Lally Jr., Director of the lab, comments in a recent article from the NALLD Journal:

"Right next to our transceiver in the master control room is a Drake SPR-4 all band communications receiver which we use to record foreign language shortwave broadcasts. It became necessary to purchase this extra piece of equipment since the receiver section of our (Drake TR-4C) transceiver would not tune the international shortwave frequencies. Everyday, Monday through Friday, we record German, French, and Spanish news broadcasts onto audio cassettes and check them out to interested individuals."

Each SPR-4 comes with 10 bands installed which cover longwave, standard broadcast and seven shortwave broadcast bands. An added capability of 24 band coverage, 150 kHz to 30 MHz is possible with installation of optional crystals.

The Drake SPR-4 lab quality receivers are also in use by the Federal Communications Commission monitoring stations and can be found in the radio rooms of ships at sea all over the world.

Language students often need individual attention from the teacher. Now there's patented MONI-COM II to help with classroom tutoring. An exclusive feature allows as many as 40 students per console to be monitored. Each student can be helped without embarrassment or disturbing others . . . even the student's program and responses can be recorded for playback. MONI-COM II broadcasts up to six different lessons at one time to students wearing 6-channel receiver/headsets with microphones. Because the system is wireless, there's unprecedented flexibility in room usage and seating. The compact 26" x 18" x 8" console is easily portable. For a free, no-obligation demonstration in your school, contact P/H Electronics . . . also manufacturers of 2 to 12-channel one-way wireless systems for the classroom and instructional media centers.
