Difficult words become easy with the Tandberg IS 9 Learning Laboratory.

Microprocessor technology has allowed greater freedom and flexibility to produce the most versatile Learning Labs at a reduced cost.

The IS 9 is so easy to use, you need no technical experience to operate it. Consequently, you can offer total individual attention to the differing needs of each student.

The next time “fremdsprachenlehrhilfen technologie” comes up, relax, Tandberg makes it easy to say, “foreign language teaching aids technology.”

We've worked hard, so you won't have to.
