PLEASED WITH NEW FORMAT

I have just received the first issue of *J.E.T.T.* and am very pleased with the new format. It has a clean, modern look to it. As a charter member of NALLD from the mimeographed newsletter days, I have always been proud of our communication with our members and the world. This latest change you have made is in keeping with the ever-present need to update and present educational technology's best face to the world.

Congratulations and continued success.

INTERESTING ARTICLES

I was delighted to receive today a copy of *The Journal of Educational Techniques and Technologies*. Having scanned the contents, I am anxious to read through it. You seem to have put together some interesting articles. The new layout is also an improvement. I would enjoy doing reviews for *J.E.T.T.* My areas of expertise are English as a Second Language, Spanish as a Foreign Language, Foreign Language Reading Instruction, and Computer-Assisted Foreign Language Learning.

Good luck as Editor-in-Chief. I am already looking forward to the next issue.

A MOST IMPRESSIVE JOURNAL

I have had Volume 20, No. 1, of *The Journal of Educational Techniques and Technologies* on my desk for some weeks now. Only last week did I have the opportunity to review it carefully. I am, of course, delighted to see that you are the new Editor-in-Chief of what is a most impressive journal. Such a responsibility is not handed to a person lightly, and it is an honor for you and for the University.

Although I do not know Jeanne Varney Pleasants, I was touched by your editorial in her memory. Again, sincere congratulations as you begin your term as Editor. You will be interested to know that in a recent survey we found that we have approximately eighty journals edited or published on this campus.
